

Happy Birthday

The CTC is 125 years old. To celebrate we threw a party down Dorset way.

Several of our local members went along for the jelly & ice cream and for some cycling in the beautiful Dorset countryside.

A great time was had by all. The weather was hot - it was in the middle of the summer heat-wave.

The only problems were that the caterers had not appreciated the sheer quantities of water, orange juice and lemonade that hundreds of thirsty cyclists could down in no time flat - and that the heat made some of the rides more challenging than expected.
